Project Work (Part III)

Hand-In (digitally) Date: Last Class (1st of July, 2026)

DO NOT USE LLMs, I am looking for YOUR OPINION!

Written Text:

- What did YOU learn in this class?
 - Summary of the class in YOUR words
 - What are YOUR personal take-aways, transfer what you learned to your other classes
- Why is Cloud Computing important?
 - Summary of the key points highlighted in this class
 - Why did it make sense for YOU to take this class?
- What are the advantages and disadvantages of the Cloud Computing model?
 - When would you suggest a company to use cloud computing and when would you suggest to do something else?
